

Girl Scout Troop 676 is pre-selling native* plants. The plants come from native stocks and are grown at a Virginia nursery. All plants are priced at \$10.00 and come in mostly 6" or 7" containers.

All orders must be received by May 2nd with payment by either mail or drop-off at this address: 802 Ridge Place, Falls Church, VA 22046. We have a limited availability of stock - we cannot guarantee we will not run out of a particular plant so order early. Credit card is also an option – just email your form and let us know you want to pay by credit card.

Orders will be available for pick up on Sunday, May 5th at Cherry Hill Park in the City of Falls Church (behind the community center near the basketball court). Please come by between 11am and 1pm. If you need to arrange another time, please contact Melissa Teates (703-538-6961 or meltektites@outlook.com). We can deliver plants within the City of Falls Church or adjacent areas of Arlington/Fairfax.

*Note: These plants are not specifically native to all sub-regions of Virginia. Please research the plants that you are interested in to see what is most suitable for your location and for the conditions of your property. You are also welcome to email your questions about specific plants.

The profits from the plant sale will go towards Troop 676's Gold Projects and a trip to Europe next year.

Contact Melissa Teates (703-538-6961 or meltektites@outlook.com) with any questions.
